

Susan M. Rosenthal, MD
Director, Trauma Therapy Training
Adler School of Graduate Studies
Toronto, Canada
22 July 2005

Hi Jeff,

I found your book extremely helpful in explaining my own experiences. I recommend it to all of my students and I placed a copy in our school library.

Thank you for speaking up for all of us. It is so important that there is a public campaign for justice [REDACTED]. Protecting those who speak out is necessary to encourage more people to "break ranks" and put humanity first.

In solidarity,

Susan Rosenthal

Also, here's a compliment from one of my students...

Dear Susan,

I want to thank you for suggesting that I read "Disciplined Minds." It has had a very profound impact on me, not as much for telling me about new and unexpected things, as it has helped me to crystallize and understand some things that I have observed over the years but had no clear explanation for. I intend to purchase it and keep at my bedside while I complete, eventually, a doctorate!

Thank you,

Roberto Jankowski-Alfonso
